

NEW VISION

Production Policy

New Vision's Production Team is excited about working with you to make your event a success. Please be as detailed as possible when making requests so we can meet all your event needs. All event requests should be submitted at least two weeks in advance of your event.

SOUND / AUDIO

If sound is needed (microphones, music, audio for a video, etc.) a New Vision Production Tech is required. Recorded music that needs to be played (mp3, CD, etc.) should be submitted at least ONE week prior to your event. New Vision does not provide recorded music for events.

PROJECTOR SCREEN

Displaying graphics on a projector screen requires a New Vision Production Tech. GRAPHICS are anything other than live video (ex. picture slideshows, PowerPoint presentations, video/movie clips, song lyrics, Bible verses, etc.). Graphics content should be submitted at least ONE week prior to your event.

LIGHTING

If programmed lighting is needed (colors, changes in light intensity, etc.) a New Vision Production Tech is required. Lighting needs should be submitted at least ONE week prior to your event.

* Per our church building policy, a minimum of one New Vision Production Tech is required for events held in the Worship Center and Student Center.
